

Farwa Tariq

Full-Stack Web Developer

farwa.tariq2434@gmail.com | +92 320 5437871 | Karachi, Pakistan

PROFESSIONAL SUMMARY

Creative and detail-oriented Full-Stack Web Developer with proven ability to design and deliver responsive, high-performance web applications from scratch. Experienced in working directly with clients translating business goals into clean, modern digital experiences. Consistently delivers on time with clear communication and zero hand-holding required.

PROJECT EXPERIENCE

Restaurant Website

React.js · Tailwind CSS · Firebase

- Built a fully branded, mobile-first website with interactive menu, image gallery, and contact integration.
- Focused on fast load speed and smooth UX to drive customer engagement.

Shooting Range Business Site

React.js · JavaScript · Tailwind CSS

- Developed a professional business site with service showcase, responsive layout, and booking-ready structure.
- Designed to build brand credibility and attract new customers online.

Turkish Blog Website

React.js · Supabase · Tailwind CSS

- Created a clean, SEO-friendly blog platform with dynamic content management and optimized performance.
- Delivered a polished reading experience across all devices.

Govt. Degree Girls College | 2020 – 2022

Matriculation – Medical Sciences

ME Foundation School | 2018 – 2020

WHY HIRE ME

I am not just a developer, I am someone who understands that a website is a business tool. Every project I take on is treated as if it were my own business. I ask the right questions, I communicate proactively, and I do not stop until the work is done right. Managing freelance projects alongside a demanding DPT program has taught me to be efficient, disciplined, and calm under pressure. I bring that same energy to every team I join.
